DUPLICATOR

Ultra-Simple Vocal Effects Stompbox with Doubling, Reverb and Pitch Correction

- Ultra-simple studio-quality vocal effects stompbox for doubling, reverb, and pitch correction gives you stand-out vocal effects anywhere you perform
- Three classic doubling sounds with tight, loose, and octave up and down options
- Vocally tuned reverb places your voice in the perfect musical space
- Effortless auto-chromatic pitch correction helps you sing in tune
- Adaptive Tone for perfect EQ, compression, de-essing and gating
- Intelligent mic input gain for quick and painless setup
- Talk mode for speaking with your audience
- High-quality, low-noise mic preamp for pristine vocals
- Simple, easy-to-use controls get you up and running in seconds
- Compatible with remote Mic Control using the TC Helicon MP-75 or Sennheiser* e835 FX microphones
- Rugged, road-worthy construction for years of dependable use
- 3-Year Warranty Program*
- Designed and engineered in Canada

Double tracking has been a staple in studio recording since, well… forever! It adds punch and excitement in all the right places – fattening up recordings like nothing else can. Not only is DUPLICATOR a fantastic vocal doubler, it also features 3 unique reverbs and automatic pitch correction. DUPLICATOR lets you add that same awesome studio capability to your live performances – including the tight, loose and octave sounds that will absolutely bring your songs to life!

Studio-Grade Reverb

Reverb simulates a physical space, allowing your voice to fit into the music perfectly. Whether it's the ambience of a small room, or the massive reverberation of a concert hall, DUPLICATOR's vocally tuned reverbs always bring out the best in your voice.

Personal Sound Tech

DUPLICATOR's Adaptive Tone (equalization) with compression, de-esser, and gate automatically control the timbre and shape of your sound, ensuring every note is pristinely clear and intelligible. When the crowd hears exactly what you're singing, they can join in – and there's nothing better than that!

Helping Hand

You're only human, and let's face it – sometimes even the pros need a little help hitting every note perfectly. DUPLICATOR's auto-chromatic pitch correction can instantly nudge your pitch to the nearest semitone – with performance so transparent the audience will think you are superhuman!

Ease of Use

You're a singer first and foremost, so getting knee-deep in technology probably isn't what your gig calls for. That's why DUPLICATOR automatically sets your mic gain to the optimal level, allowing you to concentrate on giving your best performance – night after night.

Power Options

DUPLICATOR gives you the option of either plug-in power via the optional POWERPLUG 9 V adapter – or 4x AA battery operation for those occasions when you're just doing a short set, or house power isn't readily available.

Your Best Performance

Whether you're playing at the local tavern or a huge festival, your vocals always deserve special attention. DUPLICATOR gives you the tools to always sound your best with vocal doubling, state-ofthe-art reverb, and automatic pitch correction – all in an ultra-simple stompbox designed to elevate your performance to the next level.

Experience DUPLICATOR at your local TC Helicon dealer, or get yours online today.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own Music Tribe factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous Warranty program.
