

## Firmware Update

**Behringer XR12, XR16, X18, XR18, X32, X32 COMPACT,  
X32 RACK, X32 PRODUCER**

**Midas MR12, MR18, M32-C, M32-LIVE, M32R-LIVE**

**Version 1.8 (30 Aug 2024)**

### New Features:

- **Dynamic Delays:** Enhance your audio with new Delays, featuring Chorus and Flanger effects that add depth and movement to your sound.
- **Advanced EQ:** Fine-tune your mix with TruEQ's Xtec EQs, offering precise and powerful equalization for crystal-clear audio.
- **Enhanced Dynamics:** Master your sound with Stereo, M/S, and Dual Fair Compressors, delivering balanced and impactful dynamics.
- **Tap Tempo:** Keep your effects perfectly in sync with the new Tap Tempo feature, ensuring everything stays in time.

### Improvements:

- **UI Enhancements:** Improved the overall user interface for a smoother and more intuitive experience.
- **Performance Optimization:** Enhanced the performance of effects, ensuring faster load times and better responsiveness.

### Bug Fixes:

- **Fixed UI Issue of the Effects:** Resolved issues affecting the display and functionality of the effects interface.
- **Fixed FX Slots 5-8 Issue:** Addressed problems related to the functionality of FX slots 5 through 8.
- **Fair Compressor on X18:** Corrected an issue with the Fair Compressor's performance on X18 devices.
