CMS 1201 BACKCAN

Back Can for CMS 1201 Series
Ceiling Loudspeakers

- Acoustically enhanced powder coated zinc plated steel back can for CMS 1201 ceiling loudspeaker
- Designed for pre-installation in newly constructed non-suspended ceilings
- Back can and containment can be installed prior to completion of ceiling
- Internally dampened 79 litre (2.8 cubic feet) capacity provides exceptional low frequency performance
- Back can fixings allow multiple installation options
- Steel mounting lugs for fitting to a Unistrut* roof rail system or hanging via 4 top-mounted eye bolts
- Single point hang via M10 or 3/8" UNC threaded rod
- Time-saving design enables one person speaker installation
- Phoenix* connectors for input and link output
- 10-Year Warranty Program*
- Designed and engineered in the U.K.

The CMS 1201 BACKCAN is an acoustically enhanced zinc plated steel back can designed for the pre-installation of CMS 1201DC loudspeakers in newly constructed suspended and non-suspended ceilings. The back can features an internally damped 79 litre (2.8 cubic feet) capacity and provides exceptional low frequency performance. Multiple installation options include: steel mounting lugs for fitting to a Unistrut roof rail system; suspension via 4 top-mounted eye bolts; and single point suspension M10 or 3/8" UNC threaded rod. One-person installation is fast and simple, and significantly reduces the amount of time required for project finalisation. Phoenix* connectors are provided for input and link output.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Tribe factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous Warranty program.
