POLYTUNE 3

Ultra-Compact Polyphonic Tuner with Multiple Tuning Modes and Built-In BONAFIDE BUFFER

- Ultra-compact polyphonic tuner gives you fast, accurate tuning and a high-quality tone tool in a single unit
- Quickly get in tune with polyphonic, chromatic and strobe tuning modes
- Built-in all-analog BONAFIDE BUFFER circuitry preserves your tone through long cable runs and convoluted pedal boards
- Polyphonic tuning lets you tune all your strings at once
- Lightning-fast chromatic tuner offers 0.5 cent accuracy
- Ultra-precise strobe tuner gives you ± 0.02 cent accuracy for ultimate tuning performance
- Exceptional buffer keeps your tone transparent and crisp with a 1 M Ω input, 100 Ω output and extremely high >112 dB signal to noise ratio
- Switchable true bypass / buffer modes let you optimize signal integrity for any setup
- "Always on" tuning mode keeps tuner on and detecting even when not muted
- Super-bright 109-LED display and an ambient light detector provide an instant clear readout in all viewing conditions
- Automatically switches between polyphonic and monophonic tuning modes based on how many strings you play
- 3-Year Warranty Program*
- Designed and engineered in Denmark

When it was introduced in 2010, the original POLYTUNE forever revolutionized the way musicians tune their instruments. Praised by professional and amateur players, guitar tuning instantly became as simple as Strum - Tune - Rock! So how do you make the best-selling polyphonic tuner even better? You take it to the next level by: providing multiple tuning modes, including polyphonic, chromatic, strobe and a variety of altered tunings; adding an onboard BONAFIDE BUFFER to preserve your tone over long cable runs and pedal board signal paths; and upgrading the LED display for even higher tuning accuracy. Say hello to your next tuner – POLYTUNE 3.

POLYTUNE Fast

Whether you're a mega-super rock star, a seasoned pro or a passionate bedroom shredder, POLYTUNE 3 gets you in tune quickly and accurately. Depending on your needs, you can choose polyphonic for tuning all strings at the same time for your live gig, chromatic for more precision during a songwriting session, and strobe for the ultimate in precision when you're laying down tracks.

BONAFIDE BUFFER

Get Buffed!

POLYTUNE 3 includes the iconic BONAFIDE BUFFER, our renowned guitar buffer that ensures zero signal degradation – no matter how long a cable you need to run! Think of it as a tuner on steroids that constantly protects your precious tone.

Tuning Turn-On

How do you want to tune? POLYTUNE 3 lets you switch between true bypass and buffer modes, the latter giving you an “always on” option that keeps the tuner in full operation – even when your signal is not muted. Tuning made simple and more efficient than ever.

Made for All Lighting Scenarios

Whether you’re performing on a truck bed in full sunlight, a dimly-lit tavern, or a stage with a massive light show, POLYTUNE 3’s super-bright 109-LED display features an ambient light detector that automatically adjusts the intensity to provide the perfect readout.

Strum – Tune – Rock

POLYTUNE 3 provides high-precision tuning with just a quick strum, and the BONAFIDE BUFFER keeps your signal transparent and strong – no matter how many stumps you use, or how long your cable runs. Plus, you'll have the most-versatile polyphonic tuner on the market right at your toes.

Check out the amazing POLYTUNE 3 at your local [TC ELECTRONIC](#) dealer today, or get yours online and find out why top players all over the world have made it their #1 choice!

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Tribe factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous Warranty program.
