

# BLENDER

Portable 12 x 8 Stereo Mixer with Multitrack Recording and Remote Control via App

- Simple and portable 12 in / 8 out stereo mixer and audio interface for blending multiple musical devices to inspire collaboration and creation
- 6 stereo inputs for mixing modern devices like tablets, phones, synthesizers, drum machines, vocal/guitar processors, and samplers
- Multitrack recording of each individual input allows you to take your mixes to the next level in post-production
- High resolution digital stereo signal output via USB for recording with mobile devices or computers
- Bluetooth connectivity with Blender App allows you to adjust your individual mix levels from anywhere in the room
- 4 independently controlled stereo headphone outputs create personalized listening experiences
- On-board compression smooths and shapes your sound into a more polished professional mix
- Built-in omnidirectional "Talk" mic allows for communication to other collaborators over the mix
- Power supply included or use with batteries for a truly mobile experience (batteries not included)
- Rugged, roadworthy construction for years of dependable use
- 3-Year Warranty Program\*
- Designed and engineered in Canada

Portable music gear has changed the sonic landscape forever – and that's a good thing! But, how does this affect your ability to be creative and connect with your friends, who want to use tablets, phones, multi-FX processors and the like? Until now, that's been challenging at best. Thanks to the incredible versatility of BLENDER, any device with a line or headphone output can be connected, providing each musician with a personalized headphone mix for a high-quality, multitrack recording session into your favorite DAW software. Plus, when you need to get some personal practice time in, BLENDER becomes the ideal "silent studio" – allowing you to play all night long without bothering the neighbors.

## Collect 'Em All

Jamming is always more fun when everyone can join in, so BLENDER comes equipped with 6 independent stereo inputs that let you plug the whole band in to write, rehearse, or just plain goof around.

## Stream it

With high resolution multichannel USB audio output, you can easily record a fantastic set of tracks directly to your DAW. And since you never know when that perfect song idea will pop up, why not just capture it all and sort out the real gems later.

## It's All About You

Everyone's version of a great mix is unique, especially when it comes to what you want to hear when performing with others. BLENDER lets each musician take control of their own personalized headphone mix, so what you want is exactly what you get. We're talking to you, 10-minute guitar solo guy!

## How About a Squeeze?

BLENDER's automatic compression "glues" all of the players together, which makes the mix fit together perfectly and ensures truly-impressive sonic performance every time.

## Everyone's a Control Freak!

Stuck behind your instrument? BLENDER's mobile app (Free Download for Android\* and iOS\* devices) lets you adjust your individual monitor mix right from your tablet or phone, preventing any accidental faceplants you might make trying to get past everyone's gear.

## Let's Give Them Something To Talk About

Now that you're all together wearing headphones or In-Ear-Monitors, how the heck do you talk with each other? BLENDER has a convenient built-in microphone specifically designed to keep the communication lines open – even inside your personal sensory deprivation tank.

## Energize Me!

With its USB and battery power options, BLENDER lets you get your jam on - no matter where you are!
