It's All You

Designed to provide the ultimate in transparency, TC8210-DT preserves the natural characteristics of the source sound, leaving your expression and tone as intended. With its cache of crystal clear halls, rooms and immersive spaces, it is an essential in any musician or mixer's creative kit.

Enter the Halls of Fame

TC Electronic has a long and well-deserved legacy for reverb design – with a signature reverb sound that has found its way into countless live rigs, pedal boards and recording studios. Based on that philosophy, TC8210-DT brings that legendary reverb sound to your DAW, where it can easily be applied to your next masterpiece.

The Sky is the Limit

Since all the processing is handled by your DAW, you can load as many instances as needed for your mix. When connected directly to your USB port, TC8210-DT's desktop controller provides ultra-intuitive control over even the most minute nuance of your effect. This creates the perfect synergy between software and hardware and makes TC8210-DT the ideal addition to any modern studio environment.

Specialist in All Styles

TC8210-DT is exceptionally versatile, both as a mixing utility and as a highly creative tool. Vivid and full in its tone, it adds incredible sonic impact and atmosphere to any source, from found sound and samples to soft synths, recorded instruments and vocals.

Record Ready Presets

TC8210-DT's Signature Presets will fuel your inspiration and add instant character to your mixing or recording session. Custom-built by some of the greatest producers and engineers around, these are not your run-of-the-mill presets, but record ready settings that will push the sound and character of the TC8210-DT to its full potential. And best of all? They're on the house. You're welcome!

Metering & More

TC8210-DT provides input and output meters for accurate signal monitoring directly on the hardware interface. The hands-on controls also let you tune all tone-defining parameters including decay, color, modulation and much more.
