- CD input allows you to play along to your favorite music
- Dual footswitch FS112 for FX 1 & 2 bypass included
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

These days, going “unplugged” often still means plugging into something. Make the sweet sounds of your acoustic guitar and voice big enough to cut through the clink of coffee cups and casual chit-chat, with the ULTRACOUSTIC ACX450. With 45 Watts surging through an amazing 8" BUGERA dual-cone speaker, integrated FX and our revolutionary FBQ technology, this amp is the singer/songwriter's best friend.

Sweet Stereo Operation

The ACX450 features a 45-Watt amplifier with two dedicated input channels: one with a single ¼" input jack for your instrument; and a second with a ¼" input and XLR input – making it the ideal amp for a one-person show with an acoustic guitar and vocals.

Custom-Engineered Transducers

We never cut corners on our guitar speakers, and we never just pull what we have off the shelf. Our 8" **BUGERA** dual-cone speakers were designed specifically for the ULTRACOUSTIC Series amplifiers – it's what sets us apart from the competition. When you buy an ULTRACOUSTIC ACX450 amplifier, you can rest assured the speaker inside have been engineered to perform flawlessly with every other element for truly professional results.

World-Class FX

The ACX450 features a 24-Bit FX processor per channel with 16 incredible presets including world-class reverb, modulation, delay and a variety of effects combinations. We also include our F112 footswitch for remote activating and deactivating the effects processor on either channel.

Onboard 5-Band FBQ Equalizer

For more than 20 years, **BEHRINGER** has designed and manufactured some of the most successful FBQ Feedback Elimination processors. Now you can own and enjoy the benefits of this technology, as we have integrated the revolutionary FBQ Feedback Detection System in this product, so your sound system is completely feedback-free, allowing you to focus on your performance. Utilizing an ultra-fast feedback detection system, this ingenious circuitry helps you recognize and tame feedback frequencies immediately. When feedback is sensed in a specific frequency range, the LED on the associated EQ fader illuminates, showing you at a glance which fader to lower to overcome the feedback. That simple!

Each channel of the ACX450 features its own 5-band EQ equipped with our amazing FBQ Feedback Detection System for the ultimate in feedback elimination.

Even More Connectivity

On the back panel, you'll find a stereo RCA Input for connecting a CD or mp3 player. If you're just getting started as a guitarist, this is a great way to play along with your favorite tunes or backing tracks – or for providing pre-recorded music during your breaks.

Big Sound, Small Package

The ultra-portable ACX450 is the perfect way to bring a beautiful solo acoustic performance to your adoring fans. Plus, it's an absolutely handsome piece of musical architecture! See how the ACX450 can bring your best performance to a bigger audience; plug into one at your nearest **BEHRINGER** dealer – or order yours online today!

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Group** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **3-Year Warranty** program.
