

## Bass Stompboxes

# BASS SYNTHESIZER BSY600

Ultimate Bass Synthesizer Effects Pedal

- The ultimate bass synthesizer that reproduces the fat and powerful sound of classic analog synthesizers—at the touch of a footswitch
- Real Sound Modeling (RSM) combines state-of-the-art DSP technology with sophisticated algorithms to emulate real acoustic environments
- Take off with 11 cutting Saw, Square and Pulse synth waveforms, Control filter cutoff and LFO rate via expression pedal (not included)
- Dedicated Mode, Decay/Rate, Resonance, Direct, Effect and Frequency controls for awesome sound shaping
- Status LED for effect on/off and battery check
- Runs on 9 V battery or the Behringer PSU-SB DC power supply (not included)
- First-class electronic On/Off switch for highest signal integrity in bypass mode
- 3-Year Warranty Program\*
- Conceived and designed by Behringer Germany

The only question is: Can your amplifier and PA system (not to mention your audience) handle the massive bottom end that this pedal can churn out? The BSY600 is a sophisticated bass synthesizer tucked away in a compact stomp box that gives your guitar or bass tons of extra low-frequency tone and funkiness. Take your playing to a whole new level and dimension with the BSY600!

## Choices, Choices, and Even More Choices

With 11 unique Square, Sawtooth and Pulse waveform Modes to choose from, the BSY600 provides a veritable truckload of classic synth sounds. Simply select a mode setting and dial in the sound you want with the Effect, Res (resonance), Decay/Rate, and Freq (frequency) knobs. Use the Direct knob to mix in the desired amount of your original signal, and you're off and running.

Ultimate Bass Synthesizer Effects Pedal

## Superb Operation

The integral Real Sound Modeling (RSM) processor enhances your bass or guitar's tone for truly rich sound quality. Also included, at absolutely no extra charge, is a genuine Really Blue LED that shows power status and battery condition, as well as an electronic bypass footswitch, which maintains excellent signal integrity. You can power the BSY600 with our [PSU-SB](#) DC power supply (not included) or a 9 V battery.

## Sound Value

Now your guitar or bass can channel the sounds of the legendary synthesizers that helped make rock and roll history, for a price so low it will amaze you! Demo the BSY600 today at your [Behringer](#) dealer, or get one online.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [MUSIC Group](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [3-Year Warranty](#) program.
