

## Vacuum Tubes

# 6L6GC

Premium and Hand-Selected Power Pentode

- The BUGERA 6L6GC is a premium-grade power tube that was designed with a focus on power, durability, consistency and capability of handling high voltage requirements
- It produces super-thick and rich tone, remarkable bass definition with articulate highs and the desired “Deluxe” character to bring your guitar to the front of the mix
- Premier engineering provides superior reliability and consistency that makes the BUGERA 6L6GC one of the best you can buy

BUGERA premium-grade 6L6GC tubes are hand-selected to bring out the best in your amplifier. Their consistently robust power, rugged durability and high-voltage performance make them ideal for all guitar, bass and other audio tube amplifier applications.

## Glorious Tone and Dependability

Our 6L6GC high-end power amp tube produces super-thick and rich tone, remarkable bass definition and articulate highs for superior overall tonal quality – the very characteristics needed to propel your instrument into the sonic stratosphere! And when compared to the competition, the BUGERA 6L6GC stands above the rest as the ultimate power tube for all critical output stages. It is simply one of the best 6L6GC tubes ever produced.

### Quality is Always #1

Our state-of-the-art process begins with selecting only the finest tubes from all over the world. We then subject them to the most rigorous testing procedures, which are conducted in demanding “real-world” applications. Only about 10% pass the test and are given the **BUGERA** name and stamp of approval. The rest are recycled responsibly.

This highly labor-intensive process is an art we’ve mastered over many years. As a result, ours are the finest and most musical tubes you can buy – at any price!
