The HEAVY METAL HM300 produces the huge, slicing guitar tone that, until now, was only available from high-gain amps cranked to the point just before meltdown. With the 2-band EQ and dedicated Distortion and Level controls, the HM300 will push your tone to the perfect level for a massive sonic assault.

Tone with Serious Attitude

With its ultra-high gain circuitry, the HM300 gives you that rowdy distortion, first made popular in the '80s, for the fiercest rhythm chops and searing leads – with virtually endless sustain!
